

Industry Experts Healthcare

We know that you're committed to the wellbeing of your patients, navigating changing regulatory and compliance considerations to ensure the highest level of care. Let us protect the health and wellbeing of your business. Newfront helps you put in place a program that manages risk and safeguards your future.

Services & Solutions

Insightful Risk Management

Specializing in program design for product liability, clinical trials, product recall, medical malpractice, and professional liability, we arrange your coverage without a learning curve, fast-tracking your documentation so you can **maintain momentum**.

Custom Strategy

Since bodily injury is your most vulnerable area of exposure, we offer our dedicated deep-bench experts to **keep you protected**, with important and unique coverage grants not available anywhere else for life science and healthcare companies.

Cost-Effective Plan

We provide broad access to the insurance marketplace and work to find the **best coverage at competitive** rates for your business and employees.

Advanced Technology

Our one-of-a-kind Clinical Trials Insurance Portal, built from scratch with input from clients, provides a secure cloud-based platform where you can **efficiently manage global trials**, coverage requirements by country, and evaluate information required to secure accurate quotes.

About Newfront. Newfront is transforming the delivery of risk management, employee experience, insurance, and retirement solutions by building the modern insurance platform. Transparent data delivered real-time translates into a lower total cost of risk and greater insights. Newfront makes insurance work for you.
